The Security Guard Daily Log Form is a fast and easy way for security personnel to log daily activities and incidents using a mobile device. It can be uploaded for company records and emailed to supervisors or customers. This will provide a "real time" recording of the event and create an objective record of the events as they unfold.

Security Assessment

Schedule a Security Assessment today! Security Assessments are an effective way to evaluate your existing security program and a great first step to take prior to making security improvements at your facility or when trying to solve a specific security problem.

During a Security Assessment, key aspects of your security program are assessed, any weaknesses are identified, and suggestions for security improvements are made. In addition, opportunities where costs can be reduced or where security operations can be made more efficient are identified.

We would be happy to meet with you in person, by email or phone to evaluate your specific security needs. Contact our qualified Security Analyst right away.
